MENTAL

How can citizens help understand the link between the **environment** and **mental health**?

Join us for a **dynamic dialogue** on the **intersection of mental health, the environment and public participation in research!**

This event will bring together leading scientists, the public, and policymakers to discuss how public involvement can improve mental health research, featuring citizen-led presentations and an engaging panel discussion.

Join us in our free event!

3rd December 2023
